

The Countdown for a More Secure Environment **STARTS NOW**

Windows Server 2012 and Windows Server 2012 R2 are reaching the end of extended support in October 2023.¹ It's time to start the clock on your upgrade.

After October 2023:

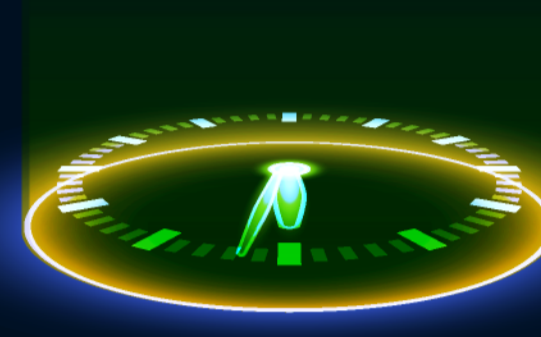

No
new updates

No
new technical content

No
support

for Windows Server 2012

Don't let outdated server technology put your business at risk.

50%+
increase in
cybercrime from
2020 to 2021²

Remote work
increases the
risk of a breach³

\$4.4M
average cost
of a data breach⁴

Are You Ready?

3

Windows Server 2022 is built to provide the security today's businesses require.

- Advanced multilayer security
- Added protection from hardware and software that work together
- More secure remote work
- A modernized server infrastructure that helps protect data and apps

2

Dell™ PowerEdge™ servers give you more peace of mind.

- Certified Dell™ hardware:** Less complexity for deployment
- Next-generation Intel® Xeon® Scalable processors:** Fast data access, lots of memory and PCIe® bandwidth
- Built-in accelerators:** Better performance for modern workloads
- Plus Dell Technologies assurances:** Simpler licensing, full-service Dell ProSupport™ and fewer steps to deploy

1

Dell servers help make your upgrade easier.

The clock is ticking. Don't delay your Windows Server 2012 or Windows Server 2012 R2 upgrade any longer. Simplify the process with Windows Server 2022 preinstalled on Dell PowerEdge servers.

Are you running Windows Server 2016 or 2019? Consider upgrading too. You'll get more security and a more modern environment.
